

Application for Certificate of Participation – AVA

I,, wish to apply to the Australian and New Zealand Society for Vascular Surgery (ANZSVS) for a certificate to confirm that I participated, as required by the ANZSVS, in the Australasian Vascular Audit (AVA) for the year ending December 31, 2016.

In making this application I recognise that “participation” means that to the best of my knowledge all index procedures (Aortic; Carotid; Infrainguinal bypass; Renal access) which I or my registrar/assistant have performed in all Australian and New Zealand hospitals that I work (private and public) for the calendar year above have been entered into the AVA. I also confirm that, except for my current inpatients, the corresponding patients have been discharged from the audit after discharge from the hospital or discharge to the care of another service.

I also recognise that AVA “participation” means that if I contribute to the training of SET Vascular trainees of the Royal Australasian College of Surgeons, I will ensure, to the best of my ability, that these trainees enter **all** vascular interventions relevant to the AVA that they are involved in, as either primary or assistant in public hospitals (and also in private hospitals if the latter is held to be part of their training) and that these patients are discharged in a timely manner.

Signed:
